

CASE KIT — SPECIAL ITEMS ART PROMPTS

Eight complete prompts, each self-contained: copy one block, paste, render. Ally Quinn: True Crime Merge · 2026-08-07

1. Skeleton Key `special_skeletonkey.png`

Subject: an ornate vintage skeleton key in aged brass, long shaft, three-tooth bit, clover-shaped bow with a small amber glass inset catching the light. Slight patina in the grooves; the metal polished where fingers would hold it. Stylized painterly illustration, hand-painted digital gouache look with visible confident brushwork and simplified but dimensional forms, matching a noir detective mobile game item icon set. Single object, centred, front three-quarter view from roughly 15 degrees above. Soft upper-left key light, restrained warm rim light. Transparent background with straight alpha: no backdrop, no plate, no pedestal, no cast shadow on the ground. No readable text, numerals, or logos anywhere on the object. Palette: worn brass, aged steel, deep navy, cream paper, with one restrained amber or teal accent. 1024x1024. Must stay legible at 84 pixels.

2. Box Knife `special_boxknife.png`

Subject: a retro utility box knife, angled steel blade one-third extended from a worn brass-and-navy handle, thumb slider visible. A short curl of cut twine loops beside the blade to show what it does. The blade edge catches a thin cold highlight. Stylized painterly illustration, hand-painted digital gouache look with visible confident brushwork and simplified but dimensional forms, matching a noir detective mobile game item icon set. Single object, centred, front three-quarter view from roughly 15 degrees above. Soft upper-left key light, restrained warm rim light. Transparent background with straight alpha: no backdrop, no plate, no pedestal, no cast shadow on the ground. No readable text, numerals, or logos anywhere on the object. Palette: worn brass, aged steel, deep navy, cream paper, with one restrained amber or teal accent. 1024x1024. Must stay legible at 84 pixels.

3. Carbon Copy `special_carboncopy.png`

Subject: two sheets of paper fanned apart at a slight angle: the top sheet cream, the sheet beneath identical but a shade cooler, with a leaf of inky blue-black carbon paper peeking between them at one corner. Faint illegible typewritten strokes only, no readable words. Stylized painterly illustration, hand-painted digital gouache look with visible confident brushwork and simplified but dimensional forms, matching a noir detective mobile game item icon set. Single object, centred, front three-quarter view from roughly 15 degrees above. Soft upper-left key light, restrained warm rim light. Transparent background with straight alpha: no backdrop, no plate, no pedestal, no cast shadow on the ground. No readable text, numerals, or logos anywhere on the object. Palette: worn brass, aged steel, deep navy, cream paper, with one restrained amber or teal accent. 1024x1024. Must stay legible at 84 pixels.

4. Bolt Cutters `special_boltcutters.png`

Subject: compact bolt cutters with short teal rubber-wrapped handles and heavy forged steel jaws, slightly open, one cleanly cut padlock shackle falling away beside the jaws. Honest tool wear on the pivot bolt. Stylized painterly illustration, hand-painted digital gouache look with visible confident brushwork and simplified but dimensional forms, matching a noir detective mobile game item icon set. Single object, centred, front three-quarter view from roughly 15 degrees above. Soft upper-left key light, restrained warm rim light. Transparent background with straight alpha: no backdrop, no plate, no pedestal, no cast shadow on the ground. No readable text, numerals, or logos anywhere on the object. Palette: worn brass, aged steel, deep navy, cream paper, with one restrained amber or teal accent. 1024x1024. Must stay legible at 84 pixels.

5. Search Warrant [special_searchwarrant.png](#)

Subject: a folded legal document in heavy cream paper, tri-fold slightly sprung open, closed with a deep red wax seal bearing an abstract scale-of-justice impression. A navy ribbon tail under the seal. Illegible formal script strokes only. Stylized painterly illustration, hand-painted digital gouache look with visible confident brushwork and simplified but dimensional forms, matching a noir detective mobile game item icon set. Single object, centred, front three-quarter view from roughly 15 degrees above. Soft upper-left key light, restrained warm rim light. Transparent background with straight alpha: no backdrop, no plate, no pedestal, no cast shadow on the ground. No readable text, numerals, or logos anywhere on the object. Palette: worn brass, aged steel, deep navy, cream paper, with one restrained amber or teal accent. 1024x1024. Must stay legible at 84 pixels.

6. Evidence Tag [special_evidencetag.png](#)

Subject: a manila evidence tag with a reinforced ring hole and a short loop of butchers twine, blank ruled lines where writing would go with no writing, one corner softly dog-eared. A thin amber border printed around the tag edge. Stylized painterly illustration, hand-painted digital gouache look with visible confident brushwork and simplified but dimensional forms, matching a noir detective mobile game item icon set. Single object, centred, front three-quarter view from roughly 15 degrees above. Soft upper-left key light, restrained warm rim light. Transparent background with straight alpha: no backdrop, no plate, no pedestal, no cast shadow on the ground. No readable text, numerals, or logos anywhere on the object. Palette: worn brass, aged steel, deep navy, cream paper, with one restrained amber or teal accent. 1024x1024. Must stay legible at 84 pixels.

7. Tip-Line Cassette [special_cassette.png](#)

Subject: a worn audio cassette tape, smoke-grey shell, both reels visible with unequal tape wound, a hand-applied cream label with illegible handwritten strokes. One corner of the label lifting. Slight scuffs; a loved object, not a broken one. Stylized painterly illustration, hand-painted digital gouache look with visible confident brushwork and simplified but dimensional forms, matching a noir detective mobile game item icon set. Single object, centred, front three-quarter view from roughly 15 degrees above. Soft upper-left key light, restrained warm rim light. Transparent background with straight alpha: no backdrop, no plate, no pedestal, no cast shadow on the ground. No readable text, numerals, or logos anywhere on the object. Palette: worn brass, aged steel, deep navy, cream paper, with one restrained amber or teal accent. 1024x1024. Must stay legible at 84 pixels.

8. Case Kit Button (HUD corner icon) [ui_btn_case_kit.png](#)

Subject: a compact worn leather detective field case, deep brown with brass corner caps and a brass clasp, lid open a hand width showing the suggestion of tools inside as silhouettes only: a key bow, a tag, folded paper. Reads as one strong shape at 142 pixels, matching the visual weight of a wall safe icon and a corkboard icon from the same set. Stylized painterly illustration, hand-painted digital gouache look with visible confident brushwork and simplified but dimensional forms, matching a noir detective mobile game item icon set. Single object, centred, front three-quarter view from roughly 15 degrees above. Soft upper-left key light, restrained warm rim light. Transparent background with straight alpha: no backdrop, no plate, no pedestal, no cast shadow on the ground. No readable text, numerals, or logos anywhere on the object. Palette: worn brass, aged steel, deep navy, cream paper, with one restrained amber or teal accent. 1024x1024. Must stay legible at 84 pixels.

Delivery: PNG, 1024x1024, TRUE straight-alpha transparency (not white-matte or checkerboard composites — if the tool cannot do alpha, deliver on flat #FF00FF and say so). Item icons drop into Assets/Resources/App/UI/Specials/ under the filename shown; the button icon goes to Assets/Resources/App/UI/Icons/. The game picks each one up automatically, no code needed.
