

# SESSION KICKOFF • 2026-09-12

---

*Paste this to open the next session. Written 2026-09-11 at close. Replaces the 09-10 kickoff. Story crafting only; schedule and release stay out of it. One issue at a time, worst first, accept / challenge / answer.*

## Where we are

---

Premise v8.1 remains formally in force. The trusting-forgery premise went through six adversary rounds (vo.3 to vo.8; all attacks and dispositions filed under SAS/four-keys-premise-delta-trusting-forgery-\*). The device was never broken. The churn was diagnosed on 2026-09-11 (the money doing opposite jobs; a partial document attacked in place of the full one), and Stephen ruled the **three foundations** the same night: SAS/four-keys-foundations-2026-09-11.md. Read that file first. It binds everything below.

**Stephen's decision:** stop the delta rounds; write spine v2.0 as a full document and attack that.

## First task: spine v2.0

---

Build SAS/episode-1-spine-four-keys-v2.0.md from v1.4 (with v1.5 to v1.8) by the same method that built v1.4: every part, every table, every row, with the foundations and the surviving rulings of the six rounds written in, and nothing left to be inferred from a delta. Include a **canon annex**: the standing facts an adversary needs (the deckhand's papers, the PO box, the nine hundred days, the tin, R19 to R27, the police procedure rulings), so that no omission reads as a hole. The reviewer's instruction stays: attack the answers; a finding re-raised without engaging its answer does not count.

Rows that change (from the six rounds, all Stephen-accepted): A1 (the lock change Day -37; the probe Day -30; the key taken in; Day -19 one morning; no Day -9 entry; Day 0 the book, one glass, under the coat; Day 1 the broken pane); B1 (the ashes for the board; the store's construction and rent; intestacy; the loan open, the calling-in private; the solicitor's account unpaid at death); B3 (the store letter's claims: the frame, the lock and the four, the reason for the scale, the instruction with her reason, three bare facts, the kind line, the ban); C1 Violet (the trap; she will not watch); C2 Brad (the mark as the reason; the debt as the occasion; the fourteen days; his own bench and grate; the panel in his locker); C5 Margo (never engaged; everything about the money to the estate; the unpaid account as the arrival; "I've said what I think"); D2/D3 (the decoy and the claims); the timeline rows 14 to 60 (the room week by week as in vo.8 section 5, amended by the foundations); Day 82 via Ruby; chapter 7 as a suspect turn on the box number, with Ruby's reading time stated from her own account; R16 retired.

Then: Fable (fresh agent, file path) and GPT (whole file) on v2.0. Disposition. Walk.

## Standing rules

---

Never name a real chemical for the tin. Never tell Fable spine Parts A to F outside the attack document itself (the attack document is the exception, as it was for v1.4). No em dashes anywhere. Terminology per v1.8 (the cookie barrel; "the tin" is tobacco only; AU copy "biscuit barrel" flagged). The first-minute test (two versions, three blind readers) stays parked until v2.0 is ruled.

## Parked behind the premise

---

Both letters and the forgery as prose; Ruby's week-four line; chapter 2 line rulings; chapter 3 prose; the recut open to three readers; the two DRAFT banner lines and the Episode Closed summary; the headless EditMode run when the editor is closed (new tests and the leads-bar grouping unverified in play); the economy note.
